American Academy of Project Management, AAPM

The AAPM © American Academy of Project Management was originally established in 1996 by the Founders Board of the Graduate Institute of Executive Leadership and Development which was a College Chartered Organization in America. The CIPM® AAPM® Certification program was founded in the USA by the Board of Standards. The CIPM is exclusively founded and issued from the USA Board of Standards which was established in 1996.

Certified International Project Manager (CIPM™) Program

Project management is growing exponentially. It's now used in virtually all industries, such as: government, health care, telecom, IT, education and banking. Effective management is how these organizations streamline to improve productivity. As businesses are restructured, project managers take over many responsibilities. Expertise in project management is a source of security, prosperity and power to many companies.

CIPM® is the credential for Project Managers, Program Managers, Architects, Program Analyst, Engineers, Procurement Managers, Risk Managers, and any individual who is involved in managing a project.

The intention of this CIPM ® Program and designation is to recognize the project managers, analysts and professionals who meet a demanding requirement of education, testing, ethics, continuing education, and experience in international project management.

University of Atlanta, Lignum Institute in the Bahamas, India- Orbit Group of Education, Aspen University, City University Colorado Technical University, Florida Institute of Technology, George Washington University, Georgetown University, Keller Graduate School of Management, Jones International University, Naval Postgraduate School, New Jersey Institute of Technology, Northwestern University, Saint Mary's University of Minnesota, Thomas Edison State College, University of Alaska, University of Atlanta, U.S Department of Interior, University of Central Florida, University of Houston, University of Management & Technology, University of Maryland, University of Phoenix, etc

Course and Learning Process

To take the CIPM™ Professional certification Exam, 40 contact hours of project management training are needed. These hours must include the following subject areas of project management.

- **Introduction to Project Management.** In this section, CIPM candidates will be introduced with the concept of project management.
- **Project Management Framework.** It focuses on the five phases of project management: Initiation, Planning, Executing, Controlling, and Closing.
- **Project Management Body of Knowledge:** This part of the course covers the nine body of knowledge, which includes Project Integration, Project scope, Schedule, cost control, quality management, human resource, communication, project risk and procurement.

Benefit of Getting CIPM Certificate

- Rise above the rest with a specialized graduate credential & qualification.
- In the project management employment world, candidates should have extra and unique qualifications and credentials because everybody seems to have the basic project management certification.
- Use of Post Nominals & Certifications after your name. i.e. John Doe, CIPM™,
- Use of the IPMC™ Handbook and Web Tools
- Ability to be listed on our web registry and become a committee member of International Project Management Commission (IPMC)
- Project Management Job Board - Use of our IPMC CEC Job Board™

Application for the CIPM program

The CIPM application must be submitted and approved before taking CIPM training and exam. The application assesses eligibility to take CIPM designation by evaluating the applicant's education and experience based on a point structure.

Pricing

Two type of mode of Payment are available

Option 1: One Payment Pricing –

Application fee: \$20

\$990 USD which is paying in advance for all of the costs of certification. This covers everything you need to become certified.

- Total= \$1,010

Option 2: Two Installment Pricing –

Application fee: \$20

Allows you to make the payment in two installments. In the first installment, you have to pay \$550 USD at registration and the remaining \$550 USD will be made at the end of the training period and before the exam.

- Total= \$1,120

The price covers

- CIPM application fee
- Three CIPM study manuals
- CIPM certification exam

Exam

To earn the CIPM certification, one must study the comprehensive manual and pass one certification exam (a mix of knowledge, decision-making, and analytical questions). Successful completion of the CIPM exam is a reliable indicator that an individual possesses the skills that project managers need globally.

Eligibility Criteria

There are specific requirements for this course; so, if you plan to take the CIPM Exam, you will need a

- Diploma's certificate with 3-5 year of project management experience or
- Bachelor's degree and 2 Years of project management experience in addition to this course, or
- High School Diploma and equivalency and (10+ Years) or 7600 hours of project management experience

Training

The training comprises 40 hours of classroom training and one assessment exam. This would take a minimum of 3 months and a maximum of 6 months. Acknowledged foreigner and Ethiopian professors will address participants. Lecture will be supplemented by study manuals with integrated case-studies, application-based exercise and review questions.

Recognition

The other part of the CIPM certification process is providing an international recognition for the qualified candidates. Newly "Certified International Project Managers" will receive a CIPM certification. They are also entitled to use the professional credential "CIPM" after their name on business cards and correspondences.

Benefits of a CIPM Certification:

The benefits of CIPM Certification are immense! Not only will anybody become a more complete person, he/she will become a better project manager.

CIPM is one of the best professional credential in the field of Project Management. CIPM certification has grown in prominence over the last decade and has become a sought-after credential or certificate.

***Increased Earnings:** The average salary for project management professionals in the USA is \$101,505.*

Growth in Career Prospects:** This internationally recognized accreditation is recognized by the global business community and often leads to **better career opportunities to someone who is certified.

***Enhance Marketability:** The certification enhances professional marketability in the field of Project Management.*

***Improved Project Management Skills:** CIPMs must undergo rigorous preparation to get their CIPM Certification.*
